INFORMATION CONTAINED IN THIS FORM 6-K REPORT

On August 20, 2025, Potássio do Brasil Ltda. (“PDB”), a subsidiary of Brazil Potash Corp. (the “Company”), entered into a definitive take-or-pay offtake agreement (the “Agreement”) with Keytrade Fertilizantes Brasil Ltda. (“Keytrade”).

Under the Agreement, Keytrade agreed to purchase between 30% and 37% of PDB’s annual potassium chloride (MOP 95) production from the Company’s Autazes Project, subject to a cap of approximately 814,000 tonnes per year. The Agreement has a term of ten years beginning with the commencement of commercial operations and is structured to provide long-term revenue visibility in support of the Company’s project financing strategy.

Keytrade’s purchase obligations will begin upon commencement of production and increase proportionally during the ramp-up period until full production capacity is achieved. Deliveries will be made on a DAP basis to Keytrade-designated warehouses in Brazil, with product quality specifications defined in the Agreement.

The pricing mechanism is formula-based and references prevailing market prices, with adjustments for logistics and payment terms. In addition, the Agreement includes a marketing fee and profit-sharing arrangement intended to align the commercial interests of both parties.

Payment is generally required in advance of delivery, though the Agreement permits sales on term subject to credit approval or provision of a standby letter of credit. The Agreement also allows PDB to assign receivables arising under the Agreement to financial institutions for project financing purposes.

The Agreement provides for customary indemnification and penalty provisions, including for shortfalls against the annual mandatory volume outside permitted tolerance levels, as well as suspension and termination rights in the event of extended force majeure.

Brazil Potash Corp. and Keytrade AG have executed certain supporting undertakings in connection with the Agreement; however, they are not parties to the operational or take-or-pay obligations.

The foregoing is only a brief description of the material terms of the Agreement and does not purport to be a complete statement of the rights and obligations of the parties under the Agreement and the transactions contemplated thereby, and is qualified in its entirety by the full text of the Agreement, a copy of which is attached as Exhibit 10.1 hereto and is incorporated by reference herein.

On August 20, 2025, the Company issued a press release announcing the Agreement, a copy of which is attached to this Form 6-K as Exhibit 99.1.

The information and exhibits set forth in this Form 6-K shall be deemed to be incorporated by reference into the Company’s Registration Statements on Form F-1 (File No. 333-287711) and Form S-8 (File No. 333-286827 and File No. 333-288029) (including any prospectuses forming a part of such registration statements) and to be a part thereof from the date on which this Form 6-K is furnished, to the extent not superseded by documents or reports subsequently filed or furnished.

The present Commercial Product Acquisition Commitment (“**COMMITMENT**”) is fair and agreed upon, which will be governed by the clauses and conditions set forth below, as follows:

1. **CLAUSE ONE – RECIPROCAL OBLIGATION OF PURCHASE AND SALE (“TAKE OR PAY”)**

- 1.1. Subject to compliance with the conditions established in this **COMMITMENT**, in particular (but not limited to) those provided for in items 3.1 and 4.1 below, **KEYTRADE** undertakes to purchase from **PDB**, and **PDB** undertakes to sell to **KEYTRADE** the amount corresponding to 30 to 37% of **PDB**’s Potash Production, limited to 814,000 (eight hundred and fourteen thousand) tonnes per year of **PRODUCT**, in the manner and frequency provided for in clause 1.1.3. **PDB** shall notify **KEYTRADE** in writing of the firm percentage amount no later than the earlier of (i) one (1) year from this Agreement’s execution date and (ii) the date on which Brazil Potash’s board of directors approves the Final Investment Decision to commence construction, and in any event prior to the commencement of construction. The acquisition will begin to occur when the Potash Production of **PDB** (“**RAMP UP**”) begins, always in the proportionality of 30% to 37%. By way of clarification, when production is “full”, which will take place after the conclusion of the **RAMP UP**, the estimated volume to be purchased will reach a maximum volume of up to 814,000 tonnes (eight hundred and fourteen thousand tons/year).
- 1.1.1. As **RAMP UP** is understood as the stage from the beginning of Production to “full” Production, which is the moment when **PDB** has the condition of full production of the **PRODUCT**, the beginning of **RAMP UP** must be informed in writing by **PDB** to **KEYTRADE**, under the terms of Clause Four and may not exceed a period of up to 6 (six) years from the present date.
- 1.1.2. Therefore, and in compliance with the terms of item 4.1., during the **RAMP UP**, **KEYTRADE** undertakes to acquire, as established in item 1.1.3 below, 30% to 37% of the Annual Potash Production limited to the amount of 814,000 (eight hundred and fourteen thousand) metric tonnes per year, and **PDB** undertakes to sell this same 30% to 37% of the Annual Potash Production.
- 1.1.3. The **PARTIES** shall jointly define the Monthly **PRODUCT** Withdrawal Program by November 30th of the year preceding the year of withdrawal. The official monthly **PRODUCT** withdrawal amount will be confirmed with monthly order by the 25th day of each month prior to the month of withdrawal.
- 1.2. The **PARTIES** acknowledge and agree that this **COMMITMENT** constitutes a usual obligation in the market, called “take or pay obligation”, whereby, once the conditions established in this **COMMITMENT** are fulfilled and compliance is maintained in each of the periods referred to in items 1.1 and 1.1.1 above, and 4.1 below, then: (a) **KEYTRADE**’s obligation to purchase the quantities of **PRODUCT** as per the Monthly Withdrawal Program above shall be immediately owed to **PDB** in respect of the corresponding month; and (b) the obligation to sell and deliver, by **PDB** to **KEYTRADE**, the quantities of **PRODUCT** provided for above shall be immediately owed to **KEYTRADE** in the time, volumes, specifications, quality and form established above.
- 1.2.1. To ensure compliance with the provisions of item (b) of clause 1.2 above, **PDB** undertakes to always maintain a minimum stock of **PRODUCT** corresponding to 14 days of the Monthly Production provided for in 1.1.2 and **KEYTRADE** is allowed to periodically visit **PDB**’s production site to check the stock (“**GUARANTEED STOCK**”).
- 1.2.2. Notwithstanding the obligations of 1.2.1., if, for any reason, the **GUARANTEED STOCK** is less than the volume of 2 sets of barges, **PDB** undertakes to immediately notify **KEYTRADE**, in addition to committing to adopt, together with **KEYTRADE**, all necessary measures to ensure the delivery or other solution, case by case, including the search and/or purchase of such products in the market, in order to make the timely delivery of the products to **KEYTRADE**, under the terms and conditions agreed in this Agreement.

- 1.3. Thus, observing these conditions, each year the **PRODUCT** volumes established in items 1.1.1 above will be considered as firm and mandatory volumes ("**MANDATORY VOLUME**") by both **PARTIES**, for the purposes of this **COMMITMENT**, where is allowed a deviation of up to 10% (ten percent) to consider that one of the **PARTIES** has not complied with the obligations to buy/sell the **PRODUCT**.
2. **CLAUSE TWO - CALCULATION OF VOLUMES AND AMOUNTS OWED DUE TO DEFAULT BY ONE OF THE PARTIES.**
- 2.1. For the purpose of defining the Monthly Withdrawal Programs established in clause 1.1.3. and verification of compliance with the obligations by both **PARTIES**, they undertake to produce, on dates agreed upon by the **PARTIES**: (i) monthly performance meetings; (ii) quarterly performance meetings; and (iii) annual closing meetings, including the assessment of performance and the application of any penalties due to non-fulfilled obligations to purchase and/or sell **PRODUCT**.
- 2.2. All meetings shall be based on the respective documents proving delivery/withdrawal and quality of the **PRODUCT** as provided for in Clause Three, and any discrepancies found by any of the **PARTIES** shall be pointed out and evaluated within fifteen (15) days of the meeting.
- 2.3. For the purpose of evaluating the Monthly Withdrawal Programs, the capacity to maintain the **GUARANTEED STOCK** (1.2.1) by **PDB** will also be considered.
- 2.4. Without prejudice to the other clauses and obligations established in this **COMMITMENT**, once the conditions set forth herein are observed, if well-known at the annual meeting that any of the **PARTIES** (Breaching Party) does not comply with the respective volumes committed for a given year, observed the margin of deviation mentioned in 1.3, then the innocent **PARTY** will be entitled to the receipt of a penalty in the amount corresponding to a percentage of average weighted price for the months in which the delivery or acquisition commitments resulted in this breach of the **PRODUCT** multiplied by the **MANDATORY VOLUME** quantities not sold and/or not delivered by **PDB** or not acquired by **KEYTRADE**, as the case may be, to be agreed between the **PARTIES**.
- 2.4.1. The penalties amounts that are uncontroversial, that is, in relation to which the **PARTIES** do not present any objection, will be paid by the debtor party within a period of up to fifteen (15) days from the respective meeting appointed in item 2.3, being this present **COMMITMENT** as an extrajudicial enforceable instrument, and the Innocent party may adopt all relevant judicial and extrajudicial measures to receive its credit.
- 2.4.2. On the other hand, any controversial amounts must be subject to negotiation between the **PARTIES**, in good faith, seeking to resolve the conflict within thirty (30) days from the date of the meeting mentioned above.
- 2.4.3. To the amounts to be paid by the defaulting party as a result of the fine for the take or pay obligation agreed herein must be added all taxes, fees, and contributions levied on the payment due so that the innocent party receives said net amounts of any taxes and discounts of any nature.
3. **CLAUSE THREE – PRODUCT SPECIFICATIONS AND DELIVERY CONDITIONS**
- 3.1. Product Specification: - The **PRODUCT** will have the characteristics, specification, and physical-chemical composition set out in "ANNEX I" to this **COMMITMENT**, thus presenting similar quality to top-of-the-line imported products widely used in the domestic market.
- 3.1.1. **PDB** undertakes to supply the **PRODUCT** under the conditions according to the chemical and granulometric composition (ANNEX I) and according to the terms of the records made at the Ministry of Agriculture, considering the tolerances provided for in the legislation.

- 3.1.2. The **PRODUCT** specification will be certified in the **PDB** Production phase, at origin, by a technical report (“**REPORT**”) issued by a duly qualified technician responsible, verified in the **PDB** laboratories, which must be duly certified by Technical Standards and approved by the Brazilian authorities, running all costs on behalf of **PDB**. At each delivery, **PDB** must provide a sample of the **PRODUCT** so that **KEYTRADE** can make a counterproof of the characteristics of the **PRODUCT** delivered.
- 3.1.2.1. If the counterproof carried out by **KEYTRADE** points out divergences in relation to the **REPORT** issued by **PDB**, the procedures described in 3.3.1 and the following must be observed.
- 3.1.3. Failure to comply with the characteristics, specifications and physicochemical and granulometric composition provided for in ANNEX I will be considered non-compliance with the **PDB**, for the purposes of this **COMMITMENT**.
- 3.2. Product Delivery: The **PRODUCT** will be delivered DAP **KEYTRADE** warehouse Miritituba, PA or DAP **KEYTRADE** warehouse Porto Velho RO, considering that **PDB** has already entered into an agreement for river transport to these two locations for 100% of its production. The detailed operational rules for the delivery of the **PRODUCT**, including weight, grade, time, and other necessary points, shall be defined in the operational procedure to be created in accordance with Clause 3.3.1. By mutual agreement between the **PARTIES**, the place of delivery and operational procedures may be adjusted as necessary.
- 3.2.1. **KEYTRADE** undertakes to keep its registration in the **PDB** duly updated, as well as to maintain the guarantees eventually provided in favor of **PDB**, to be defined in common agreement with **KEYTRADE**, valid and in force during the term of the Agreement.
- 3.2.2. Likewise, **PDB** undertakes to maintain the performance guarantees with **KEYTRADE**, as defined in mutual agreement between the **PARTIES**, valid and in force during the term of the Agreement.
- 3.2.3. In the event of a reduction in the guarantees, the respective **PARTY** that provided them shall settle the guarantees provided upon request of the other **PARTY**. **KEYTRADE**, at its sole discretion and upon prior notice to **PDB**, may not purchase the **PRODUCT** if such guarantees are not current or are not in accordance with the terms of this Agreement. Likewise, **PDB** may refuse to make any sale or delivery of **PRODUCT** in the event that the guarantees provided by **KEYTRADE** are not in accordance with the terms of this Agreement.
- 3.3. The **PRODUCT** will be delivered and billed for the quantities determined or measured at **PDB** Installations or at Warehouses designated by **PDB**.
- 3.3.1. **KEYTRADE** and **PDB** will create an operational procedure to define all rules regarding the delivery of the **PRODUCT** and to establish all rules for the measurement of weight, grade, time, and other necessary points one year prior to the date of commencement of commercial operations of the **PROJECT** and can be revised anytime by agreement between the **PARTIES**.
- 3.3.2. If **KEYTRADE** finds any divergence in the **PRODUCT** removed by it, considering the specification mentioned above in items 3.1 and 3.1.2.1, such divergence must be the subject of a formal complaint to **PDB**, to be carried out by means of a written notification delivered to **PDB**, within a maximum period of fifteen (15) days, counted from the date of delivery of the **PRODUCT** to the destination of **KEYTRADE**.
- 3.3.2.1. Upon verification of said divergence through inspection and sampling, the **PARTIES** will make the appropriate adjustments.
- 3.3.2.2. If hiring independent inspectors is necessary to resolve any differences between the **PARTIES**, the **PARTY**, without reason, must pay the respective costs.
- 3.3.2.3. The **PRODUCT** delivered by **PDB**, outside its specifications, which is not the subject of a claim within the said period, or which is effectively processed by the **KEYTRADE**, will not give rise to any claims, price reductions, or indemnities of any nature.

4.1.2. In the event of such **CONFIRMATION**, the provisions of this Agreement shall be applied.

5.2.1. In the event of a change in the tax burden that impacts the prices charged, the **PARTIES** may renegotiate the prices by means of an Amendment by mutual agreement.

5.3. **Pre-Payment Condition:** **KEYTRADE** will pay the Provisional Product Price for the **PRODUCT** in advance, creating a credit of **PRODUCT** withdrawal on the day of the order. The audit shall be performed by an independent, reputable accounting firm selected by **PDB** and reasonably acceptable to **Keytrade**, acting reasonably, during regular business hours and in a manner that minimizes disruption to **Keytrade**'s operations.
- 5.7.2. The scope of the audit shall be limited to records pertaining to the Month End Revenue Reconciliation, Final Product Pricing, Provisional Product Pricing, costs and Marketing Fee under this Agreement, including but not limited to shipment records, invoices sent to buyers and bank records.

- 5.7.4. All information obtained during the audit shall be treated as confidential and subject to the confidentiality provisions of this Agreement.

6. **CLAUSE SIX – INCREASE OF VOLUMES**
- 6.1. **PDB** will evaluate the possibility of increasing the annual quantity of **PRODUCT** provided for in items 1.1 and 1.1.1 above, at its sole discretion, at the request of **KEYTRADE**, considering the other commercial commitments already assumed by **KEYTRADE** before the exercise of said option, effective for the corresponding period and **PDB** has **PRODUCT** availability.
- 6.2. Brazil Potash Executes Definitive Offtake Agreement With Keytrade Fertilizantes Brasil for ~900,000 Tons of Fertilizer

- *Agreement supports Brazil's National Fertilizer Plan by producing a critical mineral that builds on the strengths of the domestic agricultural supply chain for farmers*
- *Binding Take-or-Pay Agreement represents second major offtake commercial milestone following AMAGGI contracts now totaling ~1.5 million tons annually, representing ~60% of planned production capacity*

MANAUS, Brazil, Aug. 20, 2025 (GLOBE NEWSWIRE) — Brazil Potash Corp. (“Brazil Potash” or the “Company”) (NYSE-American: GRO), a mineral exploration and development company with a critical mineral potash agriculture project, the Autazes Project, today announced the execution of a definitive commercial offtake agreement between Potássio do Brasil Ltda., a wholly-owned subsidiary of the Company, and Keytrade Fertilizantes Brasil Ltda. (“Keytrade”), the Brazilian subsidiary of Keytrade AG, one of the world’s leading fertilizer trading companies.

The binding agreement (the “Agreement”) establishes a 10-year take-or-pay commitment for Keytrade to purchase up to ~900,000 tons of potash annually from the Autazes Potash Project. This finalizes the memorandum of understanding announced on January 16, 2025.

“This Agreement with Keytrade is a major milestone in Brazil Potash’s commercial development,” said Matt Simpson, CEO of Brazil Potash.

“Combined with our existing take-or-pay agreement with Amaggi Exportação E Importação Ltda., we now have binding commitments for ~1.45 million tons of our planned ~2.4 million tons of annual production. These long-term contracts provide the revenue certainty essential for securing project financing and advancing construction.”

“We are thrilled to announce a major contract with Brazil Potash to distribute up to 900,000 tons of potash to the Brazilian industry. This partnership marks a pivotal moment for Keytrade and reinforces our commitment to supporting sustainable agriculture in Brazil,” said Anthony Jezzi, CEO of Keytrade Fertilizantes Brasil. “For over 28 years, Keytrade has helped clients source fertilizers globally, offering tailored services to meet local market needs. We’re proud to now include Brazilian potash in our portfolio. This collaboration with Brazil Potash is a strategic step toward reducing Brazil’s reliance on imports and fostering economic growth in the Amazon region. Keytrade is privileged to have been chosen to take over this important task and look forward to a successful partnership that benefits both companies and strengthens Brazil’s agricultural future,” added Anthony.

Key Terms of the Agreement

- **Volume Commitment:** Keytrade will purchase 30% to 37% of Brazil Potash's annual potash production, up to a maximum of 900,000 tons per year, on a take-or-pay basis.
- **Contract Duration:** The Agreement has a term aligned with the Company's project financing requirements, ensuring long-term revenue visibility and stability.
- **Pricing Structure:** Keytrade receives a marketing fee and the Agreement includes a profit-sharing provision designed to align incentives for both parties reflecting Brazil Potash's strategic locational advantage and expected lower fines content.
- **Production Ramp-Up:** Keytrade's offtake obligations will commence upon the start of production and scale proportionally during the ramp-up period to full production capacity
- **Strategic Flexibility:** The Agreement permits Brazil Potash to assign future payment rights to financial institutions for project financing purposes.

Commercial Strategy Progress

With the Keytrade Agreement finalized, Brazil Potash has secured binding offtake agreements covering ~60% of planned production. The Company is also in advanced discussions with a prospective partner that would increase total volumes to ~91% of annual capacity. The remaining production is reserved for spot sales to support our farmers, accommodate maintenance outages and production variability.

This strategic Agreement follows and builds on our recently announced MOU for ~\$200M power line construction and \$20M investment with Fictor Energia for renewable power supply.

About Keytrade AG

Keytrade AG, founded in Switzerland in May 1997, was established by senior mineral fertilizer traders with decades of industry experience. Today, Keytrade AG is a leading global fertilizer company with employees in various offices worldwide, serving the needs of suppliers, distributors, retailers, and end-users in more than 115 countries across all fertilizer products including a large presence in Brazil. Beyond trading and marketing conventional fertilizer products, Keytrade is engaged in impact investing and, through its subsidiary WeGrow, distributes innovative and sustainable fertilizers and additives for technical agriculture applications.

About Brazil Potash

Brazil Potash (NYSE-American: GRO) (www.brazilpotash.com) is developing the Autazes Project to supply sustainable fertilizers to one of the world's largest agricultural exporters. Brazil is critical for global food security as the country has amongst the highest amounts of fresh water, arable land, and an ideal climate for year-round crop growth, but it is vulnerable as it imported over 95% of its potash fertilizer in 2021, despite having what is anticipated to be one of the world's largest undeveloped potash basins in its own backyard. The potash produced will be transported primarily using low-cost river barges on an inland river system in partnership with Amaggi (www.amaggi.com.br), one of Brazil's largest farmers and logistical operators of agricultural products. With an initial planned annual potash production of up to 2.4 million tons per year, Brazil Potash's management believes it could potentially supply approximately 20% of the current potash demand in Brazil. Management anticipates 100% of Brazil Potash's production will be sold domestically to reduce Brazil's reliance on potash imports while concurrently mitigating approximately 1.4 million tons per year of GHG emissions.
